## Surf

This property is located on the [Malibu](#) break. One of the preeminent waves in all of the U.S. (and most crowded). Malibu is a classic summer time break that gets good anytime a south swell rolls in. It's usually smaller than other spots but the shape can't be beat. There are 3 main peak: 1st point - The longboard waves all others are measured against. A long sculpted wall that breaks consistently for 100 yards or more. 2nd point - Just up the beach from 1st point this is a fast & zippy wave favored by shortboarders. 3rd point - The furthest north break on Surfrider Beach, this wave breaks left and right and on the right tide can reform offering a nice long ride. This peak changes a lot during the year depending on if the lagoon has connected with the ocean or not.
